# Optional Services

## TO START

### 1. PROOFS

Add \$15 for a faxed or emailed proof of the entire order and \$12 for each additional proof.

### 2. RUSH SERVICES

Rush services are available. For details and current pricing, please see [www.checkernet.com/paidrush](http://www.checkernet.com/paidrush).

### 3. CANCELLATIONS

Should you wish to cancel your order, Checkerboard will bill you only for the work already completed, at a minimum of \$40 to cover processing and typesetting costs.

## LAYOUT & TYPESETTING

### 4. MOTIFS AND MONOGRAMS

You may add any of our motifs or monograms to your invitation, announcement or accessories for no additional charge, as long as it is printed in the same color and on the same side of the paper as the rest of your text. Otherwise, Second Side Printing or Second Color of Ink charges will apply. Please indicate the item code of the motif or monogram you have selected and designate its placement. Our layout artists will use their discretion in sizing. If you have something specific in mind, let us know – a proof is highly recommended.

### 5. SPECIAL TYPESETTING

Certain areas on the invitation have been designed to hold text. Within those areas, you have a lot of control over how text looks, such as your choice of typestyles and type sizes. However, text is limited to the areas where it is currently positioned. If you want a special typesetting layout, custom quotes are available.

### 6. HEBREW LETTERING (PROOF INCLUDED)

Please refer to *Hebrew Lettering*, in this booklet. This service includes one free proof of the Hebrew and subsequent changes or proofs will be charged as PROOFS.

### 7. FOREIGN LANGUAGE (PROOF INCLUDED)

Add \$25 per order for typesetting service in a foreign language using the Roman alphabet and associated accents. This price includes one free proof for your approval.

### 8. CUSTOMER ARTWORK AND PHOTOS

There are no additional charges for artwork when it is printed in the same ink color and on the same side as the rest of the text. Otherwise, Second Side Printing or Second Color of Ink charges will apply. For file requirements, go to [www.checkernet.com/artwork](http://www.checkernet.com/artwork).

We reserve the right to resize your artwork for the best presentation. When using supplied artwork, a proof is highly recommended.

Certain processes produce better results with custom artwork.

Please refer to the chart below or call us to discuss your needs:

### 9. COLOR MATCHING (ON CREAM OR WHITE PAPERS)

If you want a special color of thermography, matte or letterpress ink, and supply us with the Pantone Matching System (PMS) number, add \$100 to your order. If you supply us with a printed sample of the color that you would like matched, add \$125 per order. We will come very close but cannot guarantee a perfect match. Color Matching is only available on cream or white papers.

CMYK values may be supplied for digital lithography at no additional cost.

### 10. THERMOGRAPHY

**For quantities under 1,000 impressions** see pricing below. For quantities over 1,000, please call for a custom quote.

**Second Color of Ink** – Add a flat fee of \$125 per item when a second color of ink is being added.

**Third Color of Ink** – Add an additional flat fee of \$185 per item for a third color of ink.

**Low Gloss Thermography** – Add \$60 to your order. Thermography has a nice shine. If you would like a matte finish, try Low Gloss Thermography. Our Low Gloss Thermography is available on all items that are shown in Thermography. Please specify LOW GLOSS on your order form. Low Gloss is not available in Gold ink.

### 11. LETTERPRESS

# Layering & Paper Changes

On the order form under “Special Instructions” list the full name of the papers as shown in the *Papers and Liners* section of Checkerboard’s Design Library. For example, instead of requesting “Black”, please write “Jet”.

## 1. Determine price of existing paper:

Using your selected item, find its **SIZE CATEGORY** and **PRICE CODE** on the pricing page under “Customization Details”. Use these codes to select the appropriate Price Chart below. For example, the first chart is for invitations of **SIZE CATEGORY A,B,C,K and M** as indicated in the far left section of that chart.

## 2. Select a new paper:

Turn to the Checkerboard’s *Papers and Liners* section and find additional or substitute papers you like. Check the layering information to make sure the paper you’ve selected can be used for the layer you would like to add or replace:

**BOTTOM** – this means the paper can be used as a bottom layer.

**MIDDLE** – this means the paper can be used as a middle layer.

**PRINTABLE** – this means the paper can be used as a top layer. *Please take note of any printing restrictions.*

## 3. Determine price of new paper:

Using the appropriate Paper Price Chart below, you’ll find the price of the paper where the Price Code row meets the Quantities column. For example, when adding a paper of **PRICE CODE 1** to an item of **Size Category B** for 100 invitations, add \$110 to the price of your order.

**TO ADD A LAYER** – add the cost listed for your quantity to the price of your order.

**TO SUBTRACT A LAYER** – subtract the cost listed for your quantity from the price of your order.

**TO SUBSTITUTE A LAYER** – add or subtract the difference between the cost of the new paper with the cost of the original paper for your quantity to the price of your order.

- Some designs are preprinted with ink, foil, embossing or are diecut. When selecting a substitute paper, it will not have that design on it. Please call for a quote if you would like that design printed on a different paper.

- FOLDOVERS:** We are happy to create a foldover in the size and paper of your choice for a fee of \$125.

# Incredibly Thick Invitations

## Tablet Service™

A tablet invitation is created by adhering several layers of card stock together, forming an extremely thick invitation. The final piece can measure nearly 1/8" thick!

### IMPORTANT THINGS TO NOTE

- We can create a tablet invitation starting with 2 papers, and go up to as many as 6 papers.
- The tablet layers will be flush mount with straight cut edges.
- Placing a colored paper in between cream or white papers produces a stunning “seamed” effect.
- Add 3 days production time to your order for our tablet service.

### HOW TO PRICE OUR TABLET SERVICE

- Choose your printed layer, either from an existing product or from our basic pricing at the beginning of this booklet.
- Add the cost of your additional paper layers using the Paper Price Chart on the *Layering & Paper Changes* page in this booklet.
- Add the flat rate of \$150 per item (for any quantity).

And for good measure, before you affix any postage to your envelope, we recommend that you ask the post office to weigh one completely assembled invitation to determine proper postage.

---

## Customized Pockets and Jackets

Pockets and jackets can be made in other sturdy papers shown on the paper swatch pages that have the “bottom layer” symbol on the swatch. There is a flat fee of \$50 to diecut and score the new paper, along with the applicable paper changing charges which can be found on the *Layering & Paper Changes* page, in this booklet. Please call for a quote on any pockets or jackets that include designs that are pre-printed, embossed or foil-stamped.

# Envelopes

Envelopes are a key part of invitation ensembles and are available in a variety of sizes, styles and colors, with many customization options. Every invitation order includes standard envelopes. Upgraded envelopes make an even more impressive impact. You can select Colored, Heavyweight, and Handmade Renaissance. See below for envelope options per size.

# Envelope Liners

Available for STANDARD, COLORED and HEAVYWEIGHT envelopes

Decorative liners are lightweight paper cut to the shape of the envelope, inserted into the envelope, and delicately glued in. At Checkerboard we still practice the age old art of hand-lining, which allows for a huge selection of papers to be lined the full length of the envelope as tradition demands.

- Any paper in the *Papers and Liners* section with the  symbol is available for lining any Standard, Colored or Heavyweight envelope.
- Use the liner Price Code on your selected Liner swatch to find the appropriate pricing row in the chart below.

# Hebrew Lettering

## 1. CONVERSION

When you place your order on [www.checkernet.com](http://www.checkernet.com), you can select Hebrew characters and preview what they look like right away.

If you can translate from English to Hebrew (or have access to someone who can), you can use our HEBREW CONVERSION CHART available under the Dealer Resources section of [www.checkernet.com](http://www.checkernet.com). Otherwise, see “Translation” below.

1. You or your translator should translate from English into Hebrew, using Hebrew characters.
2. Using Checkerboard’s separate form entitled ENGLISH/HEBREW CONVERSION CHART, you or your translator locates the Hebrew characters in your translation. On the HEBREW CONVERSION CHART, enter the English keystroke found above each Hebrew character.

IMPORTANT! This is NOT a translation chart. You cannot translate from English to Hebrew using this chart; you can only convert Hebrew characters to English keystrokes. This chart is designed so that we may key in the correct Hebrew characters, even though the English looks like gibberish!

Be sure to place the English keystrokes from the conversion chart in the exact place you want the Hebrew characters to appear on your invitation. For example, if the right-most character in your Hebrew translation is “Aleph,” be sure to put the English character “A” in the box furthest to the right. Continue to enter the characters from right to left on each line as needed, until you have completed the conversion.

3. Select the Hebrew typestyle you want and enter it on the line labeled “Typestyle” at the top of the HEBREW CONVERSION CHART.
4. Add \$20 for the first line of Hebrew, and \$10 for each additional line, for this conversion service.
5. You will receive one free proof of the Hebrew for you to review and approve. Any new proofs will be charged at our standard rate.

### EXAMPLE:

The English is: WE ARE HAPPY TO INVITE YOU

You (or your translator) translates this as: שמחים אנו להזמין אתכם

You (or your translator) locates the characters in Hebrew on the Conversion Chart and writes the English keystrokes on the Order Form: X K V A Y J M G E L F N A X J H M U

## 2. TRANSLATION

If you do not have access to someone who can help you with the method described above, Checkerboard can complete the English-to-Hebrew translation for you. We also use this method when provided with Hebrew characters. Our translator converts the Hebrew to English keystrokes.

1. Give us the English text you want translated. Be sure to give us the Hebrew name when requesting a name translation: For example, Roberta may be Shoshana.
2. Select a Hebrew typestyle and indicate on your PERSONALIZED ORDER FORM exactly where you want the Hebrew positioned.
3. Add \$25 per line for this translation service.
4. You will receive one free proof of the Hebrew for you to review and approve. Any new proofs will be charged at our standard rate.
5. Please understand that this translation process will add up to five days to the delivery date of your proof.
