SPECIALTY SOLUTIONS®

CARBONLESS SHEETS

BASIS WEIGHT	GSM	BRIGHTNESS	OPACITY	CALIPER	SMOOTHNESS	APPLICATIONS
21 lb.	79	90	87	4.3	150	Offset & Digital

30% Post Consumer Waste (PCW) is also available

ExcelOne®. Designed to run on your offset and digital forms equipment. ExcelOne has a high fiber content and less filler, giving it excellent bulk, stiffness, tear strength and tensile strength. With a heavier basis weight of 21 lb., this paper has superior runnability.

ExcelOne® Snap-Set. Ideal for snap-set or unit-set forms, our pre-perforated, pre-collated forms are perfed a half inch from the top edge or side, eliminating the need for a separate operation.

Optica® Self-contained Carbonless. We also developed a self-contained, two-coat technology that prevents smudges in multi-ply forms. It is ideal for specialty forms, credit card receipts and multi-part business forms.

SUSTAINABLE CARBONLESS

NatureSolv®. NatureSolv is a proprietary technology that uses naturally based, organic solvents to create a capsule that is environmentally responsible.

SFI® Certification. All ExcelOne sheets meet the Sustainable Forestry Initiative's certified sourcing standards.

CleanPress® CF. Pixelle's CleanPress CF technology ensures our CF ply runs cleaner to minimize blanket dusting so you can run longer.

30% PCW option. ExcelOne Carbonless is also available in 30% Post Consumer Waste (PCW).
